al khaleej Center for Strategic Studies (Egyptian branch)
3 months (October: December 2021)
- Conducted political research and prepared analytical reports.

Achievements

- Authored and published 35+ research papers and policy analyses.
- Developed 5+ interactive Power BI dashboards.
- Analyzed datasets containing 100,000+ records using SQL and Power BI.
- Contributed to the DAM Annual Human Rights Report 2024.

- Completed the Google Data Analytics Professional Certificate.

Selected Research Projects

Annual Human Rights Report 2024

Research on:

- Preventive Detention
- Torture
- International Accountability
- Civic Space
- African Human Rights Mechanisms

Political Monitoring Projects

- Political developments
- Public policy analysis
- Human rights monitoring
- Regional affairs

DATA ANALYTICS PROJECTS

Strait of Hormuz Strategic & Economic Analysis | Python & Data Visualization

- Analyzed 90 days of **Europe Brent Spot Price** data to examine oil-market movements amid geopolitical risks surrounding the Strait of Hormuz.
- Examined Brent price trends, daily volatility, and market reactions to geopolitical developments.
- Identified a price range of **$68.53–$116.73/barrel** and daily price movements of up to **+11.90% and -9.44%**.
- Developed an interactive **Python & Plotly dashboard** to visualize Brent price movements, volatility indicators, and key market trends.
- Assessed the implications of oil-price volatility for **energy security, international trade, and risk management**.

Smoking & Cancer Risk Analysis | Power BI & Python

- Developed an interactive Power BI dashboard analyzing smoking behavior, cancer diagnosis, and population risk groups.
- Applied K-Means clustering in Python to segment individuals based on smoking and exposure-related factors.
- Performed data cleaning and feature encoding and created analytical measures using DAX.
- Analyzed cancer diagnosis patterns across risk groups and daily cigarette consumption.

- Designed interactive visualizations and KPIs to communicate analytical insights effectively.

E-Commerce Business (Power BI)

- Performed ETL using Power Query.
- Built a star schema data model.
- Developed interactive dashboards to analyze sales, customers, products, and delivery performance.

Sales performance analysis (Power BI)

- Built KPI dashboards using Power BI and DAX.
- Analyzed sales performance and generated business insights through interactive visualizations.

Coffee sales analysis dashboard (Excel)

- Created an interactive Excel dashboard using Pivot Tables, Pivot Charts, and Slicers.
- Analyzed sales trends and product performance.

super store sales dashboard (Excel)

- Developed an Excel dashboard to analyze profitability, regional sales, and customer performance.
- Created visual reports to support business decisions
